

Scott C. Lowe

University of Edinburgh
Informatics Forum
10 Crichton Street
Edinburgh, EH8 9AB, U.K.

Email: scott.lowe@ed.ac.uk

Linkedin: uk.linkedin.com/in/scottclowe

GitHub: [scottclowe](https://github.com/scottclowe)

Kaggle: [scottclowe](https://kaggle.com/scottclowe)

Nationality: British

Current position

Ph.D. candidate, Institute for Adaptive and Neural Computation, School of Informatics, University of Edinburgh.

Project: Analysis of experimental data from multi-electrode recordings in the visual cortex.

Supervised jointly by Dr Mark van Rossum, School of Informatics, University of Edinburgh; Prof. Stefano Panzeri, Italian Institute of Technology Center for Neuroscience and Cognitive Systems, Trento; and Prof. Alex Thiele, School of Psychology, Newcastle University.

Education

2011–2012 **MSc with Distinction**, in Neuroinformatics by Research, University of Edinburgh. (Average grade is 75.33%. For comparison, a Distinction at $\geq 70\%$ is approximately equivalent to $\geq 3.75/4$ US GPA.)

Neural Computation, Principles of Neuroscience, Probabilistic Modelling and Reasoning, Neural Information Processing, Computational Neuroscience of Vision, Neuroinformatics Research, Research Thesis (Neuroinformatics; Topic: *An information theoretic analysis of perceptual learning data from macaque V1 and V4*)

2007–2011 **MSci with First Class Honours**, in Natural Sciences (Mathematics and Physics), Durham University. (Overall grade is 73.37%. For comparison, a First Class at $\geq 70\%$ is approximately equivalent to $\geq 3.75/4$ US GPA.)

- Y1: Core Maths A, Core Maths B1, Foundations of Physics 1, Discovery Skills in Physics
- Y2: Complex Analysis, Linear Algebra, Analysis in Many Variables, Foundations of Physics 2, Thermal and Condensed Matter Physics
- Y3: Differential Geometry, Dynamical Systems, Continuum Mechanics, Foundations of Physics 3, Theoretical Physics
- Y4: Elliptic Functions, Mathematical Finance, Partial Differential Equations, Solitons, Project (Mathematics; Topic: *Artificial Neural Networks*)

Employment History

2015-06-01 to present	U. of Edinburgh, Edinburgh U.K.	Technical Research Assistant. Development of tools for analysis of calcium imaging data from mouse primary visual cortex with the Rochefort Lab, Centre for Integrative Physiology.
2010-07-05 to 2010-09-17	FleXtel Ltd, Sandbach, Cheshire U.K.	Web Technician. Programming in PHP for telecoms company. Designed and coded new website selling isolated consumer product. Developed market-leading algorithms to price telephone numbers patterns based on memorability of both numeric patterns and alphadial patterns http://www.flextel.com/numbers/ .
2009-08-31 to 2009-09-29	Dept. of Physics, Durham University, Durham U.K.	Physics Studentship. Programming in MATLAB to simulate Rydberg atoms and their interactions.

Grants, honors & awards

2015	Placed 57th out of 1049 in the National Data Science Bowl plankton species classification challenge, hosted by Kaggle.
2014	Placed 16th out of 504 in the American Epilepsy Society Seizure Prediction Challenge , hosted by Kaggle.
2013	Winner of “Most Viable Business Idea” award, Amazon Scotland Hackathon 2013 .
2011	Awarded a 4-year scholarship by the University of Edinburgh School of Informatics Doctoral Training Centre in Neuroinformatics, with funding from grants EP/F500385/1 and BB/F529254/1 from the UK Engineering and Physical Sciences Research Council (EPSRC), UK Biotechnology and Biological Sciences Research Council (BBSRC), and the UK Medical Research Council (MRC).
